

Granite / Marble Warranty

Granite and Marble slabs are a natural stone product; therefore, there will be natural imperfections. These imperfections are natural and are in no way flaws in the material. Colors and patterns will vary from bundle to bundle, and to some degree from slab to slab. The surface of granite is not totally smooth - there are pits, fissures, and gaps. These cannot be polished out, as it is the natural state of the stone.

Cost Less Carpet warrants the slab to be free of non-natural defects. The visual appearance of slabs can be affected by natural and man-made things like acids. These can alter the appearance of the slabs and should be avoided. See Care and Maintenance guidelines for more information.

The Fabricator installing your material will warrant the fabrication of your material. Cost Less Carpet only uses licensed and bonded fabricators.
